

JWH-018 x HRP conjugate**Cat. #8302 Lot Q0105**

LIMITATIONS: THIS PRODUCT IS FOR RESEARCH USE ONLY AND IS NOT APPROVED FOR THERAPEUTIC OR DIAGNOSTIC USE.

Background:

The Tulip Biolabs, Inc. JWH-018 x HRP conjugate, Cat. #8302, is the synthetic cannabinoid JWH-018 covalently conjugated to horseradish peroxidase (HRP). It has been used in conjunction with Cat. #1066 Anti-K2/spice rabbit IgG to make a competitive ELISA to test the presence of JWH-018, JWH-073, JWH-122, JWH-019, JWH-081, AM-2201 and related compounds and their metabolites in samples such as human urine (see Arntson *et al*, 2013). The complete ELISA kit is available from Tulip Biolabs, Cat. #4300.

Composition:

JWH-018 conjugated to horseradish peroxidase (HRP).

Supplied As:

1 mL in a BSA-stabilizing buffer containing a preservative.

Storage and Stability:

Stable for at least 3 months from date of shipment when stored at 4°C. For long-term storage, aliquot and freeze at -70°C. Avoid freeze/thaw cycles.

CAUTION: Sodium azide inactivates the peroxidase activity of this product. Do not use in any buffers!

Specificity and Comments:

Useful in conjunction with Cat. #1066 Anti-K2/spice rabbit IgG as components of a competitive ELISA.

Applications and Suggested Dilutions:

ELISA (1/250 dilution in stabilizing buffer)
Note: This conjugate is used in the Cat. #4300 K2/Spice ELISA kit.

Please note: This information is intended as a guide. The optimal dilutions must be determined by the user.
